LARSON · JUHL®

Micro-tech Italian Veneers

High quality, high specification raw materials combined with Italian technical innovation and efficiency, delivers one of Larson Juhl's most exciting releases. Designed to meet current mass market trends and tones in décor while being extremely cost effective. The features and benefits of our Micro-tech veneers eliminates many of the shortfalls experienced with other mouldings in this space and sets a new benchmark for the category.

- Ultra thick performance veneers
- Truer, long lasting colours
- Superb to the touch
- High quality finger jointed pine substrate
- Exceptional adhesive layer
- Bond locking primer coat
